An organizing session of the Kirgiz DOSAV Republic Council was held a few days ago. The meeting discussed the report of Tarasov, chairman of the Republic DOSAV Organic, on the regular duties of the society.

The Republic Orghuro was organized in April 1949 and has carried out work in establishing primary organizations and selecting aviation specialists. A total of 485 primary organizations have been established in Kirgizia, and 12,000 persons have become DCSAY members. Komsomol and trade union organizations have aided in the establishment of the primary organizations.

Although DOSAV has made great organizational progress in Kirgizia, there are some serious shortcomings in its work. Primary organizations are not doing enough work in bringing in new members.

Kishenin, chairman of the Issyk-Kul: Oblast DOSAV Orgburo, reported that there are 137 active DOSAV primary organizations and 39 motoring, model airplane, and parachute groups in the oblast. Yermurak, Chairman of the Osh Oblast DOSAV Orgburo, stated that instruction material is inadequate for the study program in that oblast.
